4.Car Wire Manual

1-1 Name of main board parts

Introduction of the game

2-1 An overview of the game

"Candy Family" is an amusement ride for small children. There are 2 in-game sceneries and 4 different characters to choose from. Popular children's songs are played throughout the game. The child can press a button to release bubbles and honk the horn for even more enjoyment.

The child can score points by collecting items and English letters, enjoy a friendly competition with the game's other players to satisfy their sense of accomplishment.

2-2 Distinctive plays

- The 2 in-game sceneries are candy hills filled with candies and cookies, and a toy beach filled with toy blocks.

Candy Hills

Toy Beach

Cake

Candy

Milk

Donuts

- Press the button on the steering wheel to release bubbles and honk the horn. If the horn is pressed at just the right moment, something interesting might happen. Release colorful bubbles for more fun.

2-3Game control

- (1) Press the button throughout the game to release bubbles and honk the horn.

- (2) Steer the vehicle by turning the steering wheel left or right.

2-4Instructions of the game display

2-5Item system

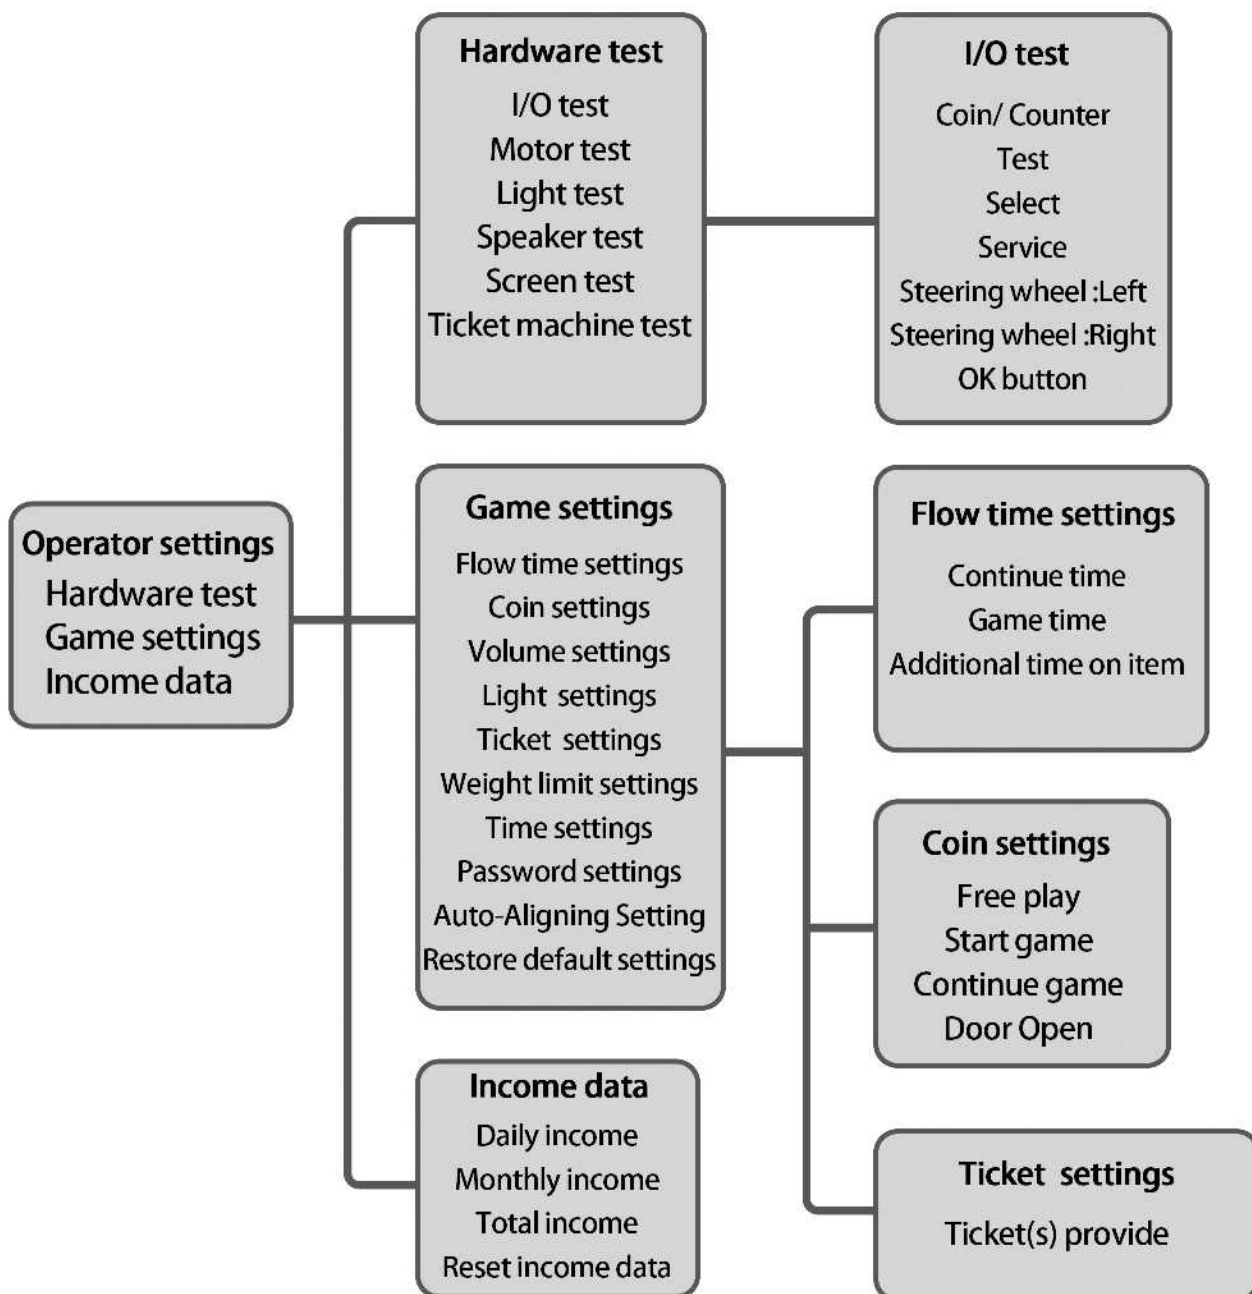

Power Magnet	Mushroom	Bubble gun	Clock
Collect nearby rewards.	Enlarge and power-up the vehicle to directly plow through any road blocks.	Change the bubble configuration to shoot farther and faster.	Extend game time.
